GoGreen
with High-Density AS/RS

Product Release:

High Density Mini Load AS/RS – Another “Go Green” Option

No Job Too Small for Westfalia Technologies’ Mini-Load Systems

YORK, Pa – February 7, 2008 - “Green Sustainable Design” is the hot topic of warehouse design and one way to do that is with Westfalia Technologies’ Multiple Deep Automated Storage & Retrieval Systems (AS/RS) for Mini-Loads. While other AS/RS providers offer single or double deep options, Westfalia offers systems that can store totes up to 12 deep, thereby more efficiently utilizing your warehouse space, and reducing your building footprint. Our flexible designs even provide a combination of single, double or multiple deep in the same aisle.

Westfalia’s flexible Mini-Load Automated Storage and Retrieval Systems (AS/RS) are ideal for smaller product or parts handling. Our 4 standard Mini-Load systems can handle a variety of product units, including boxes, cartons, bowls, trays, flat bottoms, or single unpackaged goods. Our patented Satellite® rack entry vehicle is downsized for Mini-Loads, and is available with both turning and non-turning options. Westfalia’s Mini-Load systems can handle loads of 110 to 660 lbs. In addition, custom systems can be developed to accommodate customer needs.

Westfalia’s modular *Savanna.NET*® Warehouse Management System offers total control of Mini-Load AS/RS material flows. *Savanna.NET* includes a base of standard functions, plus a number of optional modules, such as order picking or yard management. To learn more about our 4 types of Mini-Load AS/RS visit Westfalia Technologies’ NA booth #1835, or www.WestfaliaUSA.com.

About Westfalia Technologies, Inc.

Westfalia Technologies, Inc. is a leader in providing logistical software and material handling equipment for warehouses and distribution centers. Our expertise combining software (WMS) development with machinery manufacturing (AS/RS, Pallet Flow, Conveyors, etc.) means Westfalia is able to deliver turn-key solutions to meet each client's specific needs with unsurpassed quality and control. To find out more about our products please visit www.WestfaliaUSA.com.
