Westfalia Technologies, Inc. Names New COO

York, Pa. – July 28, 2008 – Westfalia Technologies, Inc (www.WestfaliaUSA.com), a leading provider of plant and warehouse automation solutions, has named Caio Seabra to Chief Operating Officer. Seabra oversees the operational side of the business, including the engineering teams, factory floor and finance departments.

Seabra began his career in his home country of Brazil, after completing his BS at the Universidade de Sao Paulo. Prior to joining Westfalia, he was the President/CEO of GEA PHE Systems NA based in York, PA, for two years, and the President of Irwin Industrial Tools in Carlos Barbosa, Brazil. Previously, Seabra was a Managing Director for GEA do Brazil in San Paolo for eight years. He has also held various positions in financial planning and administration with Detroit, a fluid connector company in Brazil.

“As the cost savings and customer service benefits of automated storage systems have become more well known to the US market, Westfalia’s presence in the material handling systems market has grown rapidly,” said Daniel Labell, President, Westfalia Technologies, Inc. “Caio Seabra has an impressive background in operations to meet the demands of Westfalia’s growing business, and streamline our business processes for continued growth and profitability.”

About Westfalia Technologies, Inc.
